Consolidated Patient Bill · IPD #2041 · Ramesh Kumar · 4 days

Day-wise break-up
3 departments merged

Day / Date	Lab	Pharmacy	Room & Nursing	Day Total
Day 1 · 24 Jun	1,250	2,100	4,725	8,075
Day 2 · 25 Jun	900	1,480	4,725	7,105
Day 3 · 26 Jun	1,300	1,350	4,725	7,375
Day 4 · 27 Jun	800	1,250	4,725	6,775
GRAND TOTAL — in just 3 clicks	4,250	6,180	18,900	₹ 29,330

Actual output — lab + pharmacy + hospital bills merged automatically, with a clean day-by-day break-up.

— TODAY'S STRUGGLE VS TOMORROW'S PEACE

What Excel–Word paperwork is quietly costing you

Every wrong total or lost entry costs you either money or the patient's trust. Both are expensive.

✗ Today — Excel/Word/Registers

- ✗ **One broken formula = wrong total.**
Embarrassment in front of the patient at discharge.
- ✗ **Re-typing in every document.** Name written 5 times, wrong once — the file is spoiled.
- ✗ **"What was charged on the 3rd?"** — 20 minutes of flipping through files.
- ✗ **A licence renewal slips your mind** — penalty, or caught in an inspection.
- ✗ **Billing drags till evening** — the bed stays blocked, the next patient waits.

✓ After SphereHealth

- ✓ **Totals calculate themselves.** The software adds; you only verify.
- ✓ **Enter the patient once** — it flows into every bill, file and certificate automatically.
- ✓ **Day-wise accounts always ready** — any day's charges in 2 seconds.
- ✓ **Licence expiry alerts in advance** — never miss a renewal again.
- ✓ **3 clicks at discharge** — beds free up faster, staff go home on time.

1 Consolidated Day-wise Billing

Laboratory bill, Pharmacy bill and the IPD Final bill — a **consolidated total** for each in one place, and a full **day-wise break-up** whenever you need it. Each department on its own, or all merged.

Laboratory bill

12 tests · 4 days

CONSOLIDATED ₹ 4,250

DAY-WISE BREAK-UP

Day 1	1,400
Day 2	950
Day 3	1,100
Day 4	800

Pharmacy bill

23 items · 4 days

CONSOLIDATED ₹ 6,180

DAY-WISE BREAK-UP

Day 1	2,050
Day 2	1,480
Day 3	1,600
Day 4	1,050

IPD final bill

Lab + Pharmacy + Room merged

CONSOLIDATED ₹ 29,330

DAY-WISE BREAK-UP

Day 1	8,175
Day 2	7,155
Day 3	7,425
Day 4	6,575

- ✓ Daily entries stay daily — each test, medicine and bed charge in its own day
- ✓ Day-wise print of the final bill — as many times as needed
- ✓ Lab and Pharmacy — each with its own consolidated bill too
- ✓ Clean A4 print with your hospital's name and logo

 **Your gain:** billing disputes end — when every day's account is visible, patients don't argue, they trust.

2 Cash Receipts

An instant, numbered receipt for every payment — advance or settlement.

Cash Receipt

#RC-5521 · 27 Jun 2026

Auto-numbered

Received from **Ramesh Kumar**

Towards **Final settlement · IPD #2041**

Mode **Card**

Amount Received ₹ 11,330

- ✓ One-click receipts — name, amount and mode filled automatically
- ✓ Automatic receipt numbering — no duplicates, no gaps
- ✓ Advance, part-payment, refund — every type covered
- ✓ Every receipt links to the patient's ledger automatically

 **Your gain:** the cash counter always tallies — which receipt, when, by whom: all on record.

3 IPD File Pages — Pre-printed Particulars

Every page of the patient file, including front & back covers — with particulars pre-printed.

- ✓ Name, IPD no., ward, consultant — automatically on every page of the file
- ✓ Front and back covers included — the file looks professional at first glance
- ✓ Set Pages & Days — print the entire file in one go
- ✓ Vital sheets, treatment charts, doctor orders — every format ready

Your gain: no more half-written manual files — pick up any file in an NABH inspection with confidence.

In-Patient File

Front Cover

Pre-printed

PATIENT Ramesh Kumar	IPD NO. 2041
AGE / SEX 42 / M	WARD · BED Semi-Pvt · B-12
ADMISSION 24 Jun 2026	CONSULTANT Dr. A. Sharma

4 Discharge Summary

A formatted discharge summary in a few clicks — from the same record, without re-writing.

Discharge Summary

IPD #2041 · 27 Jun 2026

Auto-filled

DIAGNOSIS: Acute Gastroenteritis
COURSE: IV fluids & antiemetics; Stable from Day 2, oral feeds from Day 3.
CONDITION AT DISCHARGE: Stable, afebrile. Review after 5 days.

Dr. A. Sharma

- ✓ Patient particulars pre-filled — you only write the clinical part
- ✓ The same clean format every time — any staff member can prepare it
- ✓ A4 print on your letterhead — in the patient's hands immediately
- ✓ Built-in sections for referral and follow-up notes

Your gain: no more discharge delays — the moment the summary is ready, the bed is free for the next patient.

5 Lab Report Generator

Professional test reports on your lab's letterhead — from a full test catalogue, one-click PDF.

- ✓ Provider setup — lab name, logo and address once; on every report automatically
- ✓ Full test catalogue — enter the value and reference range, the report is ready
- ✓ PDF auto-saved by name — into a patient-wise archive folder
- ✓ Clean A4 print — no more paying an outside lab for reports

Your gain: your in-house lab reporting looks professional and is instant — patients don't wait for their report.

Lab Report

Ramesh Kumar · IPD #2041

Letterhead

Test	Result	Ref. range
Haemoglobin	13.6 g/dL	13-17
TLC	7,800	4k-11k
Platelets	2.1 L	1.5-4.1

6 Estimated Cost of Hospitalization

An itemized estimate in the patient's hands before admission — so surprise-billing disputes never start.

- ✓ Room, consultant, lab, medicines — head-wise estimates, per day
- ✓ Management presets — no need to build the same estimate again and again
- ✓ Built-in "indicative estimate" disclaimer — legally safe
- ✓ Print and hand it to the attendant — decisions happen faster

 **Your gain:** families trust the hospital that shows the numbers first — admission conversions go up.

Cost Estimate

Semi-Private · ~4 din

Pre-admission

Head	Approx.
Room & nursing (4 din)	18,900
Consultant visits	2,400
Lab + Pharmacy (approx.)	10,430
Indicative Total	₹ 31,730

7 Patient Balance Ledger

Who paid how much, and what is pending — a multi-patient ledger with Excel/SQL export.

Patient Ledger

IPD #2041

Paid vs Balance

Date	Entry	Paid	Balance
24 Jun	Advance	10,000	—
25 Jun	Part payment	8,000	—
27 Jun	Settlement	11,330	0
Total · Due		29,330	₹ 0

- ✓ Every payment lands in the ledger automatically — advance to settlement
- ✓ Patients with pending balances, visible at a glance
- ✓ Multi-patient — the whole hospital's receivables in one place
- ✓ Excel/SQL export — hand it straight to your CA or auditor

 **Your gain:** recover money that used to sink — balances that got lost in registers now shine on screen.

8 Licence Tracker — Expiry Alerts

From Fire NOC to pharmacy licence — every renewal date in the system, with alerts in advance.

- ✓ All licences in one register — number, authority, validity
- ✓ Set alert months — you are warned well before expiry
- ✓ DPH-style register print — show it directly in inspections
- ✓ Renewal history stays saved too

 **Your gain:** one forgotten renewal = penalty plus the risk of being sealed. This module gives you that sleep back.

Licence Register

Alerts ON

Auto-reminders

Licence	Renewal	Status
Fire NOC	12 Aug 2026	Valid
Pharmacy Licence	05 Jul 2026	7 days left!
Bio-Medical Waste	30 Sep 2026	Valid

9 Certificates — Every Type, With Expiry

Medical, fitness, leave and more — multiple certificate types, professional formats, expiry-date alerts.

Medical Certificate

Valid till 02 Jul 2026 · alert set

Type 1 of 7

MEDICAL CERTIFICATE

This is to certify that **Mr. Ramesh Kumar** was under treatment from 24–27 Jun 2026 and is advised rest for 5 days.

Dr. A. Sharma

- ✓ Multiple certificate types ready — just pick the patient and print
- ✓ Set validity/expiry dates — the system reminds you itself
- ✓ Patient particulars auto-filled — zero writing errors
- ✓ One consistent professional format for every doctor

 **Your gain:** a certificate in 2 minutes — happy patients, shorter queues.

10 NABH Signage — Colour Print Sets

The signage NABH compliance expects — take a colour print, put it up, done.

- ✓ Fire exit, patient rights, hand hygiene, no smoking — ready-made designs
- ✓ Colour-coded, standard formats that register at a glance
- ✓ Prints for every location — ward, OT, reception, corridors
- ✓ No designer or print shop needed

 **Your gain:** start looking NABH-ready today — and save thousands on signage.

Sample set — the full signage pack is in the software.

11 Ayurvedic File Pages

Dedicated case-sheet formats for Ayurvedic practice — alongside the allopathic pages.

Ayurvedic Case Record

OPD · Panchakarma

Dedicated format

ROGI

Ramesh Kumar

PRAKRITI

Vata-Pitta

ROGA

Amlapitta

AGNI

Mandagni

- ✓ Prakriti, roga, agni, chikitsa — Ayurveda's own fields
- ✓ Devanagari-friendly printing — Hindi text comes out crisp
- ✓ Mixed practice? Both file types in one software
- ✓ AYUSH documentation, equally professional

 **Your gain:** no separate software for your Ayurvedic wing — one licence, both worlds.

12

20 Ready-made Themes — A New Look in One Click

The entire software — every screen, every printout — in your hospital's colours. 20 professional colour+font themes built-in.

For your own hospital

- ✓ Your logo (even two logos!) + your colours — every print carries your brand
- ✓ Theme change = 1 click; the whole suite refreshes instantly
- ✓ Hindi/Devanagari text prints crisply in every theme

Business idea: White-label Resale

- ✓ Set it up in another hospital's or nursing home's branding — and sell it
- ✓ A branded copy downloads per hospital — their logo, their theme
- ✓ Buying this software can become an **income stream** of its own

— ONE-TIME COST VS A BILL EVERY MONTH

See the 5-year math for yourself

Most hospital software is sold on subscription — money deducted every month never comes back. We charge only once.

Model	Year 1	By Year 5	If the vendor shuts down?
Subscription (approx ₹2–5k/month)	₹24–60k	₹1.2–3 lakh+	Your data on their server — renewal stops, access stops
Offline SphereHealth HIS — one-time	One-time price*	₹0 extra	The software is yours, data on your PC — forever

*Price shared at the demo — based on your hospital's size. No hidden charges, no renewals.

— THE QUESTIONS EVERYONE ASKS

What if the internet goes down?

Nothing happens — the software is **100% offline**. If there is power, billing keeps running. Internet is needed only when you choose to send something out.

Will my staff manage it?

Anyone who can use WhatsApp can use this. The forms mirror your old registers — and **we train you ourselves in the 1-to-1 demo**.

Is my data safe?

The safest kind — because your data **never leaves your own computer**. No cloud, no third-party servers, nothing uploaded anywhere.

Will I get updates?

Yes — we run our own hospital on this very software, so it never stagnates; **it keeps getting better**, and new features keep arriving.

We are not software sellers — we are hospital people.

Bright Institute of Medical Sciences (BIMS Hospital), Sonipat is our own 20-bedded hospital. This very software runs at our own reception, in our own billing, every single day. No module was born in a conference room — **each one was forged in night emergencies, discharge rushes and inspection pressure.** That is why it works.

— JUST 3 STEPS AHEAD

1

Message us on WhatsApp

Just type "Demo" to +91-8950999765 — that is it.

2

1-to-1 live demo

On a video call, with your own hospital's names and rates.

3

Start the same day

Simple installation — your first bill prints from it by evening.

What is tangled in Excel today will take 3 clicks tomorrow.

Book a free 1-to-1 demo — no obligation. After the demo the decision is yours; we are confident the software will speak for itself.

WhatsApp: +91-8950999765
