Excel-Word ka paperwork aapse kya chheen raha hai

Har galat total ya kho gayi entry ya to paisa le jaati hai, ya patient ka bharosa. Dono hi mehenge hain.

✗ **Abhi — Excel/Word/Register**

- ✗ **Formula toota = total galat.** Discharge ke waqt patient ke saamne sharmindagi.
- ✗ **Har document me re-typing.** Naam 5 jagah likha, 1 jagah galat — file kharab.
- ✗ **"3 tareekh ko kya laga tha?"** — file palatne me 20 minute.
- ✗ **Licence renewal yaad nahi** — penalty ya inspection me pakde gaye.
- ✗ **Bill banate-banate shaam** — bed khali nahi hua, agla patient wait par.

✓ **SphereHealth ke baad**

- ✓ **Totals apne aap.** Software jodta hai, aap sirf check karte hain.
- ✓ **Ek baar patient likha** — har bill, file, certificate me apne aap aata hai.
- ✓ **Day-wise hisaab hamesha ready** — kisi bhi din ka kharcha 2 second me.
- ✓ **Licence expiry ka alert pehle se** — renewal kabhi miss nahi.
- ✓ **Discharge par 3 clicks** — bed jaldi khali, staff jaldi ghar.

— EK BAAR KA KHARCHA VS HAR MAHINE KA BILL

5 saal ka hisaab khud dekh lijiye

Zyada tar hospital software subscription par bikta hai — har mahine kata hua paisa wapas nahi aata. Hum ek hi baar lete hain.

Model	Saal 1	Saal 5 tak	Software band ho jaye to?
Subscription (approx ₹2–5k/mahina)	₹24–60k	₹1.2–3 lakh+	Data unke server par — renewal band, access band
Offline SphereHealth HIS — one-time	Ek baar ka daam*	₹0 extra	Software aapka, data aapke PC par — hamesha

*Daam demo par — hospital ke size ke hisaab se. Koi hidden charge, koi renewal nahi.

— JO SAWAAL SAB POOCHTE HAIN

Internet chala jaye to?

Kuch nahi hota — software **100% offline** hai.
Bijli ho to billing chalti rahegi. Internet sirf tab chahiye jab aap khud kuch bhejna chahein.

Staff seekh payega?

Jo WhatsApp chala leta hai, wo ye bhi chala lega. Forms bilkul aapke purane register jaise hain — aur **1-to-1 demo me hum khud sikhate hain**.

Data safe rahega?

Sabse safe — kyunki data **aapke apne computer se bahar jata hi nahi**. Koi cloud nahi, koi third-party server nahi, koi monthly bhej-ne-wala data nahi.

Updates milenge?

Haan — hum khud isi software par hospital chalate hain, isliye ye rukta nahi, **behtar hota rehta hai**. Nayi cheezein aati rehti hain.

Hum software bechne wale nahi — hospital chalane wale hain.

Bright Institute of Medical Sciences (BIMS Hospital), Sonipat hamara apna 20-bedded hospital hai. Yahi software hamare apne reception par, hamari apni billing me, roz chalta hai. Har module kisi conference room me nahi — **raat ki emergency, discharge ki bheed aur inspection ke dabav me bana hai.** Isliye ye kaam karta hai.
